4	5S	417
5	6W	416

Well done (again) 4S!  
5H are close behind having posted much more than last week!

Dear children,

It's Friday and it's very nearly the weekend! We will get through this and be together again! Thank you for watching my daily assemblies and make sure you view our celebration assembly on SeeSaw to hear how PROUD your teachers are.

Some of you, especially in Year 3, may have seen (or even heard) Oliver H in 3M in the news lately! He has been making great use of lockdown to create daily drawings for friends and family and those drawings have attracted lots of attention! They have even helped to raise over £1,000 for the charity 'KIND.' Here is one of my favourite drawings – you can find more of them on Instagram.

**Take care of one another and stay safe!**

**Mr Swift**

Dear Parents/Carers

This week has been 'Children's Mental Health Week' and we have had a fantastic response (from home and in school) to the daily challenges and activities posted on SeeSaw. Of course, we will continue to promote the message beyond this week and similarly the messages surrounding 'Safer Internet Day' on Tuesday, 9<sup>th</sup> February will be regularly repeated and reinforced! Many pupils have now participated in our online 'get-togethers' and you will be aware that staff have 'control' of the sessions and will not 'let in' anyone whose user name is unfamiliar. This is for everyone's safety and protection.

I'm sure you will have seen that the new 'South African' variant of the virus has been detected in parts of Sefton and earlier this week I shared a letter from Sefton/PHE. We continue to be vigilant in school, including testing every member of staff twice per week, but the message remains 'Stay At Home' for the majority of children and even if you have a 'critical worker' place in school, if you can keep your child at home, then you should. School will always be open for those families that need us but we greatly appreciate your continued support in helping us to reduce daily numbers in the building and therefore reduce the transmission rate for our whole community.

Have a lovely weekend!

P A Swift
